

ASIANCE CAREERS

Asiance is a digital agency located in the heart of Seoul. We provide a complete range of services from online marketing strategy to web content creation designed for Asian markets. We are looking for front-end developer that will share our passion for the web!

Front-end web developer

Technical Skills

You must know:

- JavaScript ES6, functional programming, compiling/transpiling,
- responsive design and progressive web apps concepts,
- at least one front-end frameworks (React, Vue, Angular...),
- state management libraries (Redux, MobX...),
- task runners (Gulp) and/or bundler (Webpack),
- strong understanding of performance and SEO,
- most common SNS APIs/SDKs (Gmaps, Facebook, Instagram, Kakao...),
- when to use CSS over JavaScript.

Bonus points if you are familiar with:

- Cloud-hosting solutions (Azure, AWS, Heroku...),
- concepts behind building worldwide apps (multilingual, multi-domain, accessibility),
- basecamp/Trello/Google drive collaborative tools,
- e-Commerce development,
- REST API services implementation,
- common CMS (Wordpress, Drupal) and RDBMS/noSQL.

Personal skills

- Being able to work in team / individual, to learn and share
- Feeling comfortable using English at work
- Being able to work in Korean is highly appreciated
- Proactive, on the edge and challenging mind
- Open-minded, willing to learn new things
- Understanding all aspects of an agency
- A strong motivation
