

ASIANCE
Your Digital Agency in ASIA

Asiance Careers

Asiance is a digital agency located in the heart of Seoul. We provide a complete range of services from online marketing strategy to web content creation designed for Asian markets. We are looking for a senior web designer with over 5 years of experience that will share our passion for the web!

Web Designer Intern:

YOU ARE

- . Curious and willing to learn new skills and technologies.
- . Passionate about details.
- . Knowledgeable about current web-design trends and techniques.
- . Excited to work in a multicultural environment.
- . Experienced in CSS based web development.
- . Familiar with vector graphics (svg), Mobile optimization and loading time.
- . Comfortable using Prototyping, Wireframing and user flow in the design process.
- . Interested in animation and film production.

YOU LOVE

- . Brainstorming with different teams to contribute to the bigger idea.
- . Speaking in Korean and English.
- . Designing to solve problems that will meet or exceed strategic objectives.
- . Designing mood boards, storyboards, interactive page layouts, site grids and interface.
- . Photo retouching and enhancements.
- . Responsive-web user interface design.
- . Photoshop and Illustrator (Flash and After Effects is a plus!).

WE OFFER

- . An exciting career in which you will constantly grow and learn new skills.
- . Weekly trainings.
- . Constant challenges to express and develop your creativity and leadership skills.
- . An amazing office located in the heart of Seoul with a foosball table and creative room.
- . Free coffee and tea all day long!
- . Team events such as dinners and trips.
